🎓 8.23

PROFESSIONAL SUMMARY

Dedicated UI Developer with over 2 years of extensive hands-on experience, specializing in HTML, CSS, JavaScript, TypeScript, and ReactJS. Adept at swiftly mastering emerging technologies and excelling in the development of intricate UI applications. Proficient both as a collaborative team player and a self-reliant individual contributor. Enthusiastic about exploring innovative frontend technologies and libraries to enhance user experiences.

WORK EXPERIENCE

UI Developer

Navi Technologies

📅 Mar 2022 - current

📍 Bengaluru, KARNATAKA

- **Navi Edge (Personal Loan Journey Web App)**
- Developed, and deployed a customer facing responsive web application facilitating personal loan offers up to ₹20 Lacs.
- Successfully integrated the application with major platforms like Amazon, PhonePe, Swiggy, MakeMyTrip, Zepto, and Flipkart.
- Led the entire project lifecycle from initial setup (NextJS) through development to deployment.
- Implemented a robust error tracking system, enhancing application stability and user experience.
- Reduced frontend development time by 50% through innovative API mocking, eliminating backend dependencies.
- Contributed to over 500 daily personal loan disbursals, generating revenue exceeding ₹3 crore.
- Assumed a leadership role, mentoring junior and senior developers, and advocating for best coding practices.
- **Web UI Library**
- Spearheaded the internal Web UI Library, significantly streamlining development for 10+ teams.
- Achieved a 50% reduction in development time by championing the Web UI Library's adoption.
- Ensured high software quality by creating exhaustive test cases covering all components.
- Maintained and enhanced library components, fostering a collaborative development environment.

Frontend Developer

HDFC Life

📅 Jul 2021 - Mar 2022

📍 Mumbai, MAHARASHTRA

- Contributed to multiple Insurtech web applications, each addressing different aspects of the insurance journey
- **Buying Journey (Life Easy):** Played a role in crafting an intuitive and seamless buying process for insurance, enhancing user experience and accessibility.
- **Claims Application:** Collaborated on the creation of a claims processing application, streamlining the claims submission and evaluation process.
- **Telemedical (TM):** Contributed to the development of a telemedicine platform, facilitating remote medical consultations and services.
